Management Commentary

Kris Canekeratne, Virtusa's Chairman and CEO, stated, "We are off to a solid start in fiscal 2019 as the momentum we established in FY 2018 continues. Across every one of our industry groups, the need for digital transformation has moved from being a strategic option to being a business imperative. Virtusa's strong execution and the depth and breadth of our digital engineering capabilities allow us to help our clients realize the full potential of digital transformation and are powering our performance."

Ranjan Kalia, Chief Financial Officer, said, "We are pleased with our fiscal 2019 first quarter results. We reported revenue toward the high-end of our guidance range and generated strong year-over-year organic revenue growth, margin expansion and EPS accretion. Our fiscal 2019 first quarter momentum has allowed us to maintain the midpoint of our FY 2019 revenue guidance even after absorbing one percent of currency headwinds compared to our prior guidance. We expect strong fiscal year 2019 non-GAAP diluted EPS growth of 38% at the midpoint based on our increased earnings guidance."

Financial Outlook

Virtusa management provided the following current financial guidance:

- **Second quarter fiscal 2019 revenue is expected to be in the range of \$301.0 to \$309.0 million. GAAP diluted EPS is expected to be in the range of \$0.09 to \$0.13. Non-GAAP diluted EPS is expected to be in the range of \$0.50 to \$0.56.**
- **Fiscal year 2019 revenue is expected to be in the range of \$1,235.0 to \$1,265.0 million. GAAP diluted EPS is expected to be in the range of \$0.09 to \$0.19. Non-GAAP diluted EPS is expected to be in the range of \$2.16 to \$2.34.**

In accordance with US GAAP, Virtusa applies the if-converted method to its convertible preferred shares when reporting its fiscal year 2019 results. The if-converted method is used to calculate the share impact of convertible securities. Under this method, only when the convertible securities are

considered dilutive are they then included in the computation of weighted average shares outstanding in reported results and full year guidance.

- *First quarter GAAP Income per share was calculated by including the impact of dividends and accretion on the convertible preferred shares in net income available to common stockholders and excluding the impact of the convertible preferred shares from the weighted average shares. First quarter non-GAAP EPS was calculated by excluding the impact of dividends and accretion on the convertible preferred shares from net income available to common stockholders and including the impact of the convertible preferred shares in the weighted average shares outstanding as these shares were dilutive on a non-GAAP basis.*
- *GAAP EPS guidance was calculated under the assumption that these convertible preferred shares will be anti-dilutive in fiscal 2019. Thus, in determining full fiscal year 2019 GAAP EPS guidance, dividends and accretion on the convertible preferred shares are deducted from net income available to common stockholders and the convertible preferred shares have been excluded from weighted average shares outstanding.*
- *Non-GAAP EPS guidance was calculated under the assumption that these convertible preferred shares will be dilutive in fiscal year 2019. Thus, in determining full fiscal year 2019 non-GAAP EPS guidance, dividends and accretion on the convertible preferred shares are excluded from net income available to common stockholders and the impact of the convertible preferred shares are included in the weighted average shares outstanding.*

The Company's second quarter and fiscal year 2019 diluted GAAP EPS estimates are based on average share counts of approximately 30.7 million and 30.8 million, respectively (assuming no further exercises of stock-based awards). The Company's second quarter and fiscal year 2019 diluted Non-GAAP EPS estimates are based on average share counts of approximately 33.7 million and 33.8 million, respectively (assuming no further exercises of stock-based awards). GAAP and Non-GAAP average share counts assume a stock price of \$52.88, which was derived from the average closing price of the Company's stock over the five trading days ended on August 2, 2018. Deviations from this stock price may cause actual diluted EPS to vary based on share dilution from Virtusa's stock options and stock appreciation rights.

investments which Virtusa believes provides insight into its cash position and overall liquidity (see footnote 2).
